BUILDING SOFTWARE FOR REAL-WORLD INDUSTRIAL & ENTERPRISE SYSTEMS
Level 2 systems for Rolling Mills • Angular • Node.js • .NET Core APIs • C# • MSSQL

PROFESSIONAL PROFILE

Software Engineer with experience developing enterprise web applications, industrial automation software, reporting systems, APIs and database-driven solutions. Current work centers on Level 2 automation systems for Rolling Mills, including recipe and reporting applications, consumption reporting, roll management and system integrations. Earlier experience includes healthcare, workflow, asset management, e-commerce and customer-specific enterprise applications.

PROFESSIONAL EXPERIENCE

AIC Capitanio Automation Systems
Bangalore
aicnet.it

Level 2 Engineer / Angular, Node.js & .NET Core Developer
Mar 2021 – Present
- Level 2 automation systems for Rolling Mills.
- Recipe & Reporting, Consumption Reporting and Roll Management systems.
- Kocks, SAP and QMOS / MES integrations; REST APIs and industrial data flows.

AFI Infotech
Kochi, Kerala
afiinfotech.com

Loftware Engineer / Angular & .NET Developer
Nov 2019 – Feb 2021
- Developed enterprise modules for a Hospital Management System.
- Built web interfaces, APIs and database-driven workflows.

SYSBOON Technologies
Calicut, Kerala
sysboon.com

Software Engineer / ASP.NET MVC Developer
Apr 2017 – Oct 2019
- Delivered workflow, asset management, e-commerce and customer-specific web applications.
- Worked across ASP.NET MVC, C#, SQL Server, JavaScript and APIs.

Tekubez Innovations
KINFRA – Malappuram, Kerala

PHP Developer
Jul 2016 – Jan 2017
- Worked on web application development during the early stage of professional career.

ENGINEERING FLOW

UI	API	Communication & BL	DATA	INTEGRATION
Angular	Node.js • .NET Core	Node JS	MSSQL • PostgreSQL	SAP • MES/QMOS • Kocks

FEATURED ENGINEERING PROJECTS

Recipe & Reporting System **Industrial Automation**	Recipe workflows and operational reporting for rolling-mill environments. Angular • Node.js • MSSQL • .NET Core API
Consumption Report **Production Reporting**	Data-driven reporting focused on production / consumption information. Angular • Node.js • MSSQL
Roll Management System **Rolling Mill Automation**	Application supporting roll-management workflows within an industrial environment. Angular • Node.js • MSSQL • .NET Core
Kocks Integration **Industrial Integration**	Integration work connecting rolling-mill application workflows with Kocks-related systems. APIs • Integration • Database
SAP Integration **Enterprise Integration**	Integration work connecting industrial application workflows with SAP. APIs • Integration • MSSQL
QMOS / MES Integration **MES / Industrial Integration**	Integration between Level 2 automation applications and MES/QMOS-related systems. APIs • DB Communication • Industrial Automation

SELECTED INDUSTRIAL CUSTOMERS

Rashmi Metaliks Site: Kharagpur, West Bengal	**Super Smelters** Site: Jamuria, West Bengal
Suryadev Alloys Site: Gummidipoondi, Tamil Nadu	**Arjas Steel** Site: Tadipatri, Andhra Pradesh
ArcelorMittal Site: Ukraine	**Mitwalli Steel** Site: Saudi Arabia

ADDITIONAL PROJECT PORTFOLIO

Solver - Hospital Management System Customer application ERP Solutions to automate and integrate hospital and clinic operations	**Honeywell Thermal Chamber Control System** Honeywell Automation India Ltd. Software work for thermal chamber control solution.
Renault 4M Workflow Management Renault-Nissan Automotive India Pvt. Ltd. Workflow management, database and administration portal.	**Boon Boon** Customer application Administration portal and API for waste management control.
Kottakkal Arya Vaidya Sala Customer application Backend administration and API development for a mobile application.	**Mailing, Auto DB Cleaning, Auto DB Backup** Customer application Windows Microservices By Node JS
Karang Greeny Customer application API for a mobile application.	**iTrace** Customer application Workflow, task management and document digitalization.
Ticket Desk Customer application Online Issue Claiming / Ticketing System.	**nTrac** Customer application Asset Management System for Banks.

TECHNOLOGY STACK

FRONTEND	Angular • AngularJS • JavaScript • HTML • CSS • jQuery • AJAX
BACKEND	Node.js • C# • .NET • .NET Core • ASP.NET MVC • REST APIs
DATABASE	MSSQL / SQL Server • MariaDB • PostgreSQL • MySQL • Firebase
INDUSTRIAL / PROTOCOLS	MQTT • OPC UA • RabbitMQ • HTTP • TCP IP
DEVELOPMENT TOOLS	VS Code • Visual Studio • SSMS • Postman • UA Expert • IIS • Cursor

EDUCATION

BSc Information Technology
S N G C, Coimbatore
2013 – 2016

Higher Secondary
KKM GVHSS, Kerala
Biology-Maths • 2011 – 2013

PROFESSIONAL SKILLS

Ability to manage and execute multiple projects simultaneously.
Excellent troubleshooting and debugging with effective resolution.
Patient, positive and eager to learn new technologies.
Effective communication across teams and departments.
